

Register of Solvent Companies

AN EXCLUSIVE CATEGORY OF DEPENDABLE COMPANIES.

Membership in the Solvent Company Register is the sign of a safe and proper business relationship with current and potential clients. The Register includes companies with proven financial stability, good payment history, solvency and reliability.

THE MAIN IDEA

Bisnode continually monitors whether Register members meet its strict conditions and makes them available to financial institutions, insurance companies, banks and other institutions via its products, web pages and its partners.

“Increase your prestige!”

Membership in the Register of Solvent Companies increases your company's trustworthiness, its chances in tender proceedings and allows it to get better conditions when applying for various loan and credit services.

CONDITIONS FOR MEMBERSHIP

- The company has no registered debts
- The company is not in insolvency, bankruptcy or liquidation
- The company does not have obligations which are more than 30 days past due
- The company's scoring falls into the category of AAA–BB in the Bisnode Scoring scale
- Regular publication of financial results in the Collection of Documents

THE BENEFITS OF MEMBERSHIP

With basic registration members get inclusion and presentation in Bisnode company products, which are used by financial institutions and companies in the B2B sector.

Higher membership options also include access to the Auditor and Preventer applications. Register members are thus able to check up on Czech and Slovak companies and also to monitor their business partners' portfolios.

WHAT YOU GET WITH CERTIFICATION

Two versions of this award are available. The first one is an active logo, which serves as on-going verification that certification conditions are fulfilled. The logo is automatically updated every day from the Bisnode database. It is thus possible to check that you currently meet all certification conditions.

The second option is a combination of the active logo with a printed certificate, which is particularly suited to hanging in your company office. The electronic version is well suited for use such as presentation in the company's marketing materials, like the annual report etc. The certificates are also available in other languages.

Membership in the Solvent Company Register will place you in the exclusive category of companies which are known by the most valuable traits – respectability, solvency and reliability. Membership in this prestigious Register will significantly improve your company's image and will allow it to get better conditions for all types of credit services.
